

ISO 9001 - Quality Policy:

The Company is committed to

- **Qualified People**
- **Quality Products and Services**
- **Continuous Improvement of our Quality Management System**

Specific Objectives of our Quality System (As related to the Quality Policy):

Qualified People:

- a.) To ensure that our employees have the best internal and external training possible as evidenced through the continuously updated training records.
- b.) To hire only the most qualified applicants for a specific job
- c.) To review each employee's progress and report to them the results and expectations for their position.

Quality Products and Services:

- a.) To ensure all customers are satisfied with the quality of products and services through continual polling.
- b.) To ensure all designs meet or exceed customer requirements as evidenced through the design reviews conducted.
- c.) To ensure all manufacturing processes are in control and producing quality products through the consistent use of quality check sheets. And reporting of all rework performed.

Continuous Improvements:

- a.) To maintain a list of continual improvement ideas
- b.) Continually add to that list
- c.) Continually select and have in process the most important of the identified continuous improvements for our system.

ISO 14001 - Environmental Policy:

The company is committed to:

- **The responsible maintenance of the environment we affect**
- **Continually improving by recycling our waste, striving for zero pollution, and minimizing the environmental footprint of all the products we engineer and build**
- **Complying with all laws, regulations, and stakeholder requirements regarding our environment**

The company's Environmental Moto:

WHAT WOULD NATURE DO? (WWND)

ISO 17025 - Laboratory Policy:

The Company is committed to

- **Quality Certified Products**
- **Qualified People**
- **Continuous Improvement**

The company's management is committed to delivering our customers a **Quality Certified Product** that is traceable to each CMM through ISO 17025 accredited processes. **Qualified Personnel** will be trained both internally and externally to operate the CMM equipment. They will know the company's processes/procedures and quality standards to ensure customers will be receiving a quality product. The company is dedicated to **Continuously Improving** to guarantee their high standards for quality are always being met.
